## North Kingstown Free Library (NKFL) Summaries of the Schunke collection

The following shows the entries in the LDS films corresponding to particular NKFL Schunke summaries.

The Schunke films are at:

<https://www.familysearch.org/search/catalog/485783?availability=Family%20History%20Library>

There are 23 films (called here “Rolls”) listed on this site. A particular roll may be accessed by clicking on the camera icon at the right of the entry. LDS films usually have sections called “Items,” within Items are “Images.” Images are numbered from the beginning of the roll. In the following the image number is of the first image of material on the library summary. The library summary may have entries before those appearing on the LDS roll. The LDS roll may have material not noted on the library summary and vice versa. A few images on each roll are for LDS housekeeping, a few are headings for material that follows, some of these headings are from the LDS, others are from the NKFL, and others are from Schunke.

To navigate the LDS rolls:

Once you are viewing the relevant roll you will either be looking at a single image or a screen full of images. You can toggle between these with the menu at the left edge of the screen (the vertical bar with + and -, below which is an icon of either a page or collection, this is the icon that toggles). Above that vertical bar is “Image x of y” where y is the number of images on the roll and x is the image you are currently focused on. To go to a particular image on the roll, go to the x slot, erase the number and put in the number of the image you want and hit “Enter”. The right and left arrows move to the next or preceding images.

The NKFL Schunke summaries may be accessed on the Worden Family Association website. These summaries encompass only a small amount of the material on the LDS rolls and in the NKFL archives.
